

SYSU-MM01 Dataset Release Agreement

Introduction

The SYSU-MM01 dataset is an RGB-Infrared (IR) multi-modality pedestrian dataset for cross-modality person re-identification. The Intelligence Science & System Lab (iSEE) of Sun Yat-sen University will provide the SYSU-MM01 dataset freely of charge to researchers. Every pedestrian captured in the dataset has signed a privacy license to allow the images to be used for scientific research and shown in research papers.

Content

The researcher(s) agrees to the following restrictions and requirements on the SYSU-MM01 dataset:

1. **Redistribution:** Without prior approval from iSEE, SYSU-MM01 dataset will not be further distributed, published, copied or disseminated in any way, whether for profit or not. This includes further distributing, copying or disseminating to a different facility or organizational unit within the requesting university, organization or company.
2. **Modification:** Without prior approval from iSEE, SYSU-MM01 dataset cannot be modified.
3. **Commercial Use:** Without prior approval from iSEE, commercial use of SYSU-MM01 dataset will not be allowed.
4. **Publication Requirements:** In no case should the images be used in a way that could reasonably cause the original subject embarrassment or mental anguish.
5. **Citation:** In all documents and papers that report experimental results based on this dataset, a citation of it should be added into the reference as follow:

```
@article{wu2020rgb,  
  title="RGB-IR Person Re-identification by Cross-Modality Similarity Preservation",  
  author="Ancong {Wu} and Wei-Shi {Zheng} and Shaogang {Gong} and Jianhuang {Lai}",  
  journal="International Journal of Computer Vision",  
  volume="128",  
  number="6",  
  pages="1765--1785",  
  year="2020"}
```

6. **Indemnification:** Researcher agrees to indemnify, defend and hold harmless iSEE and its officers, employees and agents, individually and collectively, from any and all losses, expenses, damages, demands and/or claims based upon any such injury or damage (real or alleged) and shall pay all damages, claims, judgements or expenses resulting from Researcher's use of SYSU-MM01 dataset.
